

## **Z-7650 Digital Timer**

This digital timer provides the user with the ability to time and/or execute events in a precise manner.

This timer is microprocessor controlled, which provides the user with a highly accurate and stable timing source.

Its design flexibility makes it ideal for a wide variety of applications; its software could be updated in the field using a personal computer.

### **FEATURES:**

- Four digits .4" 7 segments LED display.
- 1 to 99 minutes.
- Internal memory will store all programmed parameters after power is removed from the system.
- Remote Start.
- Remote Stop switch.
- 2 Amps relay output.

### **OTHER APPLICATIONS:**

The Z-7650 Timer can be configured in many different ways to satisfy a wide range of user applications.

Among others, some of the applications for which this controller could be useful are:

- Food Service Equipment.
- Timed food or liquid dispensing.
- Process Control Equipment.
- Industrial mixer controls.
- New product development.

### **SPECIFICATIONS:**

#### **Electrical:**

24 V AC or DC.

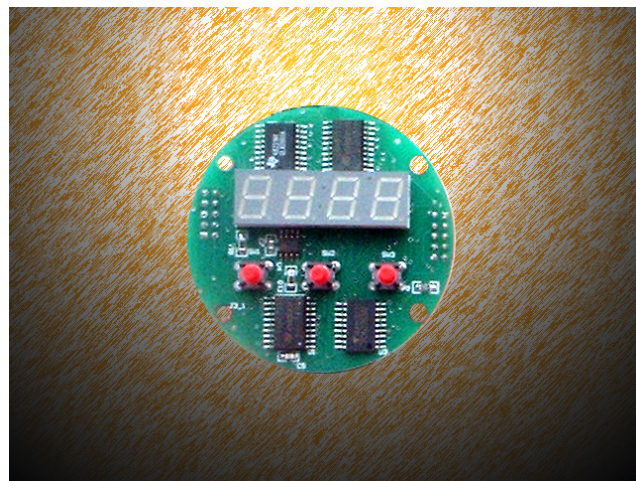

110 or 220 VAC 50/60 Hz.

#### **Mechanical :**

2.50 in. Diameter.

#### **Operating Temperature:**

0° to 85° C.

### **ORDERING CHART:**

<b>Z-7650-24</b>	24 VDC/VAC.
<b>Z-7650-120</b>	115 VAC 50/60 HZ.
<b>Z-7650-230</b>	220 VAC 50/60 HZ.
